

COMPANY PROFILE

Mian Tayyab Steel

Structural and industrial steel for contractors, fabricators and industrial projects across Pakistan.

Rawalpindi, Pakistan

miantayyabsteel.com

WHO WE ARE

45 Years as a Leading Steel Supplier in Pakistan

At Mian Tayyab Steel (MTS), we supply a wide range of structural and industrial steel products in Pakistan, including HRC, CRC, GP, EC, Channels and Solar Channels. As a trusted steel supplier based in Rawalpindi, we deliver dependable materials with reliable supply for contractors and industrial projects, backed by 45 years of experience.

45 years of experience supplying steel to Pakistan's construction and industrial sectors

OUR LEGACY

FIRST GENERATION

Before 2010, the business was run together by Mian Ijaz and his brother, building the foundation the company still stands on today.

SECOND GENERATION

A new chapter began under the Mian Tayyab Steel name, carried forward by the second generation as a steel, fabrication and manufacturing supplier based in Rawalpindi.

Our Vision

To become one of Pakistan's most dependable steel suppliers by expanding our product range, strengthening our supply chain and investing in the processing capabilities our customers need. We want sourcing steel to be simple, transparent and reliable, whether you are placing a single order or managing a large-scale project.

Our Mission

To supply steel our customers can depend on, every time. That means sourcing from verified mills, standing behind the specifications we quote, and being straightforward about lead times, pricing and availability.

WHO WE WORK WITH

Construction companies, contractors, architects, fabricators, engineering firms, manufacturers, steel traders, industrial buyers, procurement teams and infrastructure-related businesses.

WHAT WE SUPPLY

Product Range

Product	Description	Availability
Hot Rolled Coil (HRC)	General-purpose hot rolled steel coil for structural fabrication, pipe manufacturing, and general engineering work.	In Stock
HRC Chequered Plate	Hot rolled steel plate with a raised chequered (diamond/lentil) pattern, providing slip resistance for flooring and walkway applications.	In Stock
Cold Rolled Coil (CRC)	Precision cold rolled steel coil with a smoother surface finish and tighter dimensional tolerance than HRC.	In Stock
Galvanized Steel (GP)	Zinc-coated steel coil and sheet, hot-dip galvanized for corrosion resistance in outdoor and humid environments.	In Stock
GL (Galvalume) Coils	Aluminum-zinc alloy coated steel coil, offering higher corrosion resistance and heat reflectivity than standard galvanized steel.	In Stock
I-Beam	Hot rolled structural I-section (ISMB series) for columns, beams, and heavy structural framing.	On Demand
H-Beam	Wide-flange hot rolled H-section for heavy structural columns and high-rise construction framing.	On Demand
Solar Channel	Galvanized C-section engineered for solar panel mounting structures and ground/rooftop racking systems.	In Stock
MS Angle	Equal and unequal leg mild steel angle bar for structural framing, brackets, and towers.	On Demand
Door Frame	Pressed steel door frames for construction and industrial building openings.	In Stock
Corrugated Sheets	Wave-profile galvanized/galvalume steel sheets for roofing and wall cladding.	In Stock
Profile Sheets	Trapezoidal-rib galvanized/galvalume steel sheets for long-span roofing and cladding.	In Stock

PROCESSING AND LOGISTICS

Services

Service	Description
Steel Shearing	Fast, straight-line shearing for cutting sheet and plate to length economically.
Steel Cutting (Manual & Machine)	Manual and machine-based cutting methods to suit a range of project needs and budgets.
Steel Bending & Forming	Accurate bending and forming of sheet and sections for structural and fabrication applications.
Coil Cutting	Cut-to-length processing that converts full-width steel coil into flat sheets to your exact specification.
Steel Transportation	Delivery of ordered steel from our facility to your site or warehouse.

STEEL BY APPLICATION

Applications We Serve

Construction & Infrastructure Steel

Structural sections and flat steel for residential, commercial, and infrastructure construction.

Structural & Engineering Steel

Hot rolled structural sections engineered for load-bearing framing, columns, and heavy structural assemblies.

Steel Sheets & Plates for Fabrication

Hot and cold rolled sheet and plate products for fabrication shops and manufacturers.

Steel Coil Processing Solutions

Coil-form steel products for downstream cutting, slitting, and roll-forming operations.

Heavy Industrial Steel Applications

Structural sections, rail, and plate products for heavy industrial facilities and material-handling systems.

Galvanized & Corrosion-Protected Roofing Steel

Zinc and aluminum-zinc coated steel for long-life roofing and cladding in a range of environments.

WHY CHOOSE US

Why Work With Mian Tayyab Steel

Certified & Traceable Material

Every batch is traceable to its source mill, with mill test certificates available on request.

Broad Product Range

Coil, sheet, structural sections and roofing products sourced under one roof, so you are not managing multiple suppliers.

In-House Processing

Shearing, cutting, bending and coil cutting services that reduce your downstream fabrication work.

Reliable Delivery

Direct delivery to project sites, warehouses and fabrication shops.

Transparent Pricing & Terms

Clear quotations with no hidden costs, and flexible terms for established customers.

Responsive Support

A team that answers quickly and helps you specify the right material the first time.

AUTHORIZED DISTRIBUTOR

International Steel Limited (ISL)

Officially authorized distributor of ISL's steel products.
